

# THREE ROLL CLOSURE CANYON PACK INSTRUCTIONS

## Stuff Goes In!

Leave enough space to roll your bag closed.

## Roll it

Fold the top over once where the buckles create an edge. Squeeze any extra air out of the bag.

Maintaining the single fold, continue to roll closed a minimum of three times.

## Buckle it

Your bag cinches down over the top, down the sides, or both. The Canyon pack also includes multiple daisy-chain attachments, padded shoulder straps and lumbar support, making it the ideal long haul portage bag.

## BACK BUCKLES

## WARNING

Dry bags are superior protection, but this bag is not suitable for protection from submersion.

Dry bags are designed to provide enhanced protection from rain and temporary contact with water.
