

SEATTLE SPORTS COMPANY
Manufacturers of Superior Outdoor Gear

Dear *Sherpak Smart Rack*[™] Customer:

Thank you for purchasing the ***Sherpak Smart Rack*[™]**. We are confident that with the proper care and consideration, you will be very satisfied with the ***Smart Rack's*[™]** performance.

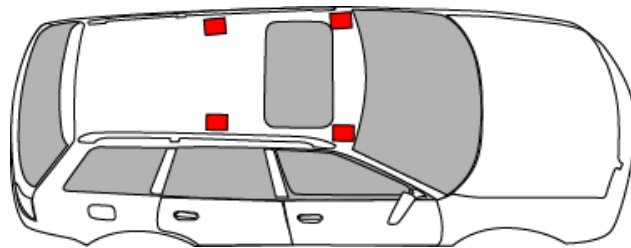

Please follow these helpful instructions:

Loading the *Sherpak Smart Rack*[™]:

- Before loading, make sure the top of your vehicle has been washed thoroughly to prevent dirt from scratching the surface of your roof underneath the foam feet.
- Assemble the Smart Rack by inserting side A into side B. Secure the fitting with the included coder pins at points X and Y.

ILLUSTRATION OF ASSEMBLY

- Position the ***Smart Rack*[™]** on the roof between your vehicle's rack bars with the foam feet positioned at the widest point on the rack. Hint; The closer you get to the edge of your roof line the better. The strongest points lie at the edges. Do not position the ***Smart Rack*[™]** on top of sun/moon roofs. The ***Smart Rack*[™]** must be positioned on the rooftop. Move any rack bars so that the foam feet are securely positioned on the rooftop and in between any and all rack bars.

- Once the cargo area has been loaded make sure to secure any loose items by attaching the optional ***Smart Rack Cargo Net***.

If attaching the ***Smart Rack*[™]** with straps going through cabin of the car:

- Attach the straps at points A and B and feed through the cabin of the car to the identical points on the opposite side of the rack. Meet the ends of the straps with the cam buckles inside the cabin of the car and pull tight. **Make sure to not over tighten the strap as excessive force may dent the roof of your car.**

If attaching the ***Smart Rack*** with 18" Rack Lasher Straps to side rails:

- Attach straps at points A and B and loop under and around side rails and draw tight. Secure any loose strap ends to avoid driving noise. **Make sure to not over tighten the strap as excessive force may dent the roof of your car.**

ILLUSTRATION OF STRAP POSITIONING

- **When stopping, always check to make sure no one has tampered with any cam buckles before continuing your journey.**
- **Please note, DO NOT load the *Sherpak Smart Rack*[™] while it is still on the ground and then transfer it fully loaded to the car-top. Although this may seem easier, **Seattle Sports warns you that lifting heavy objects may cause personal injury and damage to your vehicle.****

Additional Accessories

- **Smart Rack**[™] **Rain Sleeve** – Helps prevent water build up and dripping through door jam.
- **Smart Rack**[™] **Locking Cable** – Added security for cargo valuables
- **Smart Rack**[™] **18” Rack Lasher** - Convenient straps for quick lashing to side rails without excess strap ends.
- **Smart Rack**[™] **Bungee Net** – A durable cargo net that adjusts to any load

Warning!

- **Contents may shift during travel. Do not attempt to lift a fully loaded Sherpak**[™] **Elite onto or off of the vehicle.**
- **Always secure the Sherpak Smart Rack**[™] **before driving.**
- **If you hear excessive flapping noise, immediately pull over and check to make sure the *Smart Rack*[™] is firmly secured.**
