Freeplay Companion

The Companion is Eco Friendly, a radio, a flashlight, and a cell-phone charger, all in one unit. It has a solar panel and a crank so you'll never run out of power, and you'll never have to buy disposable batteries. Great for camping or stormy weather when the power goes out. Children love it for overnight camp outs in the back yard. Make sure you have one of these in your emergency preparedness kit. freeplayenergy.com

Seattle Sports:

NewWave PVC Free Deck Bag

The eco-friendly NewWave offers a larger capacity, window-view internal access, multiple lashing points and easy quick-release rigging. With a PVC-Free rip-stop nylon body, the NewWave adds form and function to any kayak deck.

Though the new wave was designed for something altogether different, this water companion storage accessory has a unique use for us. We have two miniature Dachshunds that like to join us on our leisure paddles. On the river as usual our little guys were being nosey checking out everything in the kayak, they stumbled upon our new deck bags. Before we realized what they were doing they crawled up into the bags and made themselves at home. With the quick view window on the new-wave they could see all around them and seemed to have added sense of security. With us the things we buy and use is all about function and quality. We always look for things that can be used for many things, not just what they are designed for. Well I have to say we found one here for the record books. The deck bags are perfect for the little guys when on a leisure river run or a paddle around the local lake and gives the added storage we need on an actual river run.

Crossfire Sportsman's Deck Bag

Designed for anglers, this streamlined Crossfire features a roomy top pocket and multiple organizer pockets inside sized to fit standard fly boxes. Open the lid of the bag and use as a rod holder to keep your hands free. Four mounting straps offer easy deck mounting. The Crossfire offers excellent splashproof protection with coated zippers and easy shore-side totability, along with an adjustable, detachable shoulder strap. This is a must have for any fisherman that wants an added edge. seattlesports.com

Royal Robbins

We all look for that one pair of jeans we can live in and will be a fashion statement in any situation with style comfort and fit. Royal Robbins has come up with one of today's greatest, the Nox jean. They have combined cotton with Coolmax for stretch, wicking and quick dry properties which makes them very comfortable in hot temperatures. Rugged yet stylish and easy care, this is a must for any wardrobe. royalrobbins.com

NRS Chinook Fishing PFD

Most pdf's have a lack of pockets for gear, but now NRS has solved that problem. The Chinook has the pocket space along with plenty of loops to clip on pliers, nippers and the like. There is even a d-ring on the pack you can hang your net on. This design has 8, count them 8 adjustment points to help achieve that customized fit for both safety and comfort. One great thing about this particular pdf is the fact that it does not ride up when kayaking in crafts that have high seat backs. You just have to experience this pdf, words simply cannot do it justice.

Thorlos Womens Crew Hikers.

This particular sock is designed for light day hikes and everyday wear. One important thing to note is that it is designed specifically for women offering a better fit. The blend of materials wicks moisture and will keep your feet comfortable even in 100 degree weather. This sock is cushioned in the heel and the ball of the feet which makes you more comfortable. This added cushioning will also help to avoid those nasty blisters you can experience after a long hike or a full day of walking. You will notice exceptional fit as soon as you put these socks on and after one day in them you will have no more questions about properly fitting socks. thorlo.com

NRS Guru -

NRS will donate \$5.00 from the purchase of every pink Guru PFD to Padding for Cancer Awareness.

NRS Canine Flotation Device (CFD)

Additional safety for any dog that spends time near the water is a must. The NRS Canine Flotation Device gives you peace of mind by providing extra flotation for your best friend. Simple design fits snug and secure without interfering with the dog's normal activities. You take precautions for your safety, do the same for your canine companion. nrs.com

Justin Boots: Women - AQHA Foundation Series

Non Exotic - Have you needed to buy a new pair of boots and keep putting it off because you did not want to suffer with breaking them in? Well now you do not have to. The new Justin AQHA series boots come broke in and ready to wear. Hard to believe but true, the first time I put my boots on it felt like I had been wearing them for years. I did not have to do the new boot shuffle, you know the one where your feet are hurting and you are half walking and sort of dragging your feet along to avoid the pain. Style, function and comfort, what more can you ask for? Get your AQHA boots today. justinboots.com

Rome Industries Pie Irons:

An epiphany is when you put a camper, a pie iron, and campfire together. The number and variety of delicious meals that can be made in a pie iron are endless. Rome in their collection of irons offers panini irons and the old favorite popcorn popper and Weiner/marshmallow forks for the kids to enjoy along with more. Rome Industries has been making pie irons since the early 1960's, so I acquired some of their classic square cast iron pie irons to try for myself. The conclusion I came to, is that they are versatile campfire cooking tools that no one should be without. You can cook everything from corn bread to steak with one of these. They are made of heavy cast iron with extra long handles, and the irons can be placed right in the campfire coals. Your family camping experience is not complete without these pie irons. Try the Pie Iron Recipe Book: by Richard O'Russa and Creative Pie Iron Cooking: compiled by Richard O'Russa for your complete pie iron experience. romeindustries.com
